

## POLICE RAID "GREEN LIGHT"

Noted Gambling House Visited  
by Chief's Orders.

## THE PROPRIETOR ARRESTED

ENTRANCE EFFECTED THROUGH  
A NEAT RUPEE.

THROUGH clever work on the part of Sergeant Eddington and Officers Brown and Armstrong, an entrance was secured by the police last night to the "Green Light" gambling house, which has been running, for some time in rooms over the Success saloon on Commercial street.

"Eph" Moore was arrested for running a game, and a man giving the name of "Jack Jones" for interference with an officer. Both gave bonds, Moore in the sum of \$100 and "Jones" for \$50.

Entrance to the place was not secured without trouble, and neither did the officers have plain sailing in arresting Moore. Knowing that gambling was being run in the room, the officers were aware of the fact that the room was being used for the purpose of the game, and that for this reason access on his part would be practically impossible. Sergeant Eddington instructed Patrol Driver Armstrong, armed in a civilian suit, to ascend the stairs and enter the house. He stationed himself at the door, while the other officers took a stand at the street door, intending to pass into the house after the door was opened to admit Armstrong. The latter ascended the stairs and passed two "lookouts" without any trouble, the last one opening the door for him. The room to which he gained admittance was full of people gambling. Faro and roulette tables were crowded. In the back of the room a "stud" poker game was running full blast.

Gamblers Warned by a Bell. Armstrong walked around the room watching the fortune hunters win and lose. He was trying to find the proprietor, and had just inquired for him when Sergeant Eddington, on the stairway, tried to pass the watchers. He was recognized, and in a second a bell in the gambling house rang and all was confusion. As Moore, who was running the game, arose to escape, Armstrong caught him by the arm, remarking that he was a prisoner.

"Prisoner, nothing!" objected Moore. "Who are you?" Armstrong told him he was an officer and showed his star, but the gambler remarked that the star did not stand for anything in that room, and as the officer started to drag his prisoner to the door, several other employees of the house threw themselves upon him and attempted to take the prisoner away. During the scrimmage Armstrong is said to have knocked one of his assailants, and Sergeant Eddington, on the outside, with threats of escape, the door down if it was not opened, succeeded in getting into the house.

The doors were closed, and Moore and "Jones" were taken to the station. The raid was made under instructions from Chief Paul, who decided yesterday to take the increase in the slugging moral vein of the community. The police admit that there are other gambling houses running, and say that they are not able to gain entrance to them.

## INCREASE WITHOUT ASKING

New York Central Advances the  
Wages of Its Employees.

New York, Nov. 15.—It became public today that the New York Central railroad recently has increased the wages of some 15,000 in its employ from 8 to 13 per cent. The increase adds nearly \$1,000,000 a year to the payroll of the company.

Three reasons are given for the policy of the road: The increased cost of living; the wish of the management to equalize wages on all parts of the system, and the company's desire to recognize faithful and efficient service.

Pittsburg, Pa., Nov. 15.—The Pittsburg & Lake Erie Railroad company that will meet the advance of the Pennsylvania system. Announcement to this effect was made this afternoon by Colonel Schomaker, vice president and general manager of the road. It has not been determined what increase will be given nor what class of employees will be affected.

## Late Locals

CHILD IS FATHERLESS.—A son has been born in Provo to Mrs. J. A. Jennings. She is the wife of the man who was shot and killed some time ago by Barney Eckstein in his road house on the car line between here and the penitentiary. Since the tragedy Mrs. Jennings has made that southern city her home.

GIERY FOR SCHOOL BOARD.—The friends of W. S. Giesy, the fire insurance and real estate man, who was Republican chairman in the First district for the last election, are urging him to announce his candidacy as an aspirant to fill the seat on the board of education at the coming election which was left vacant by the resignation of Ed. B. Critchlow. Mr. Giesy's name is the first one mentioned by the Republicans in connection with the school board. He is a graduate of an eastern university and for ten years was identified with an educational institution in Kansas, where he held a similar position with an Ohio university.

## Personal Mention.

Jack, the 8-year-old son of Mr. and Mrs. Clarence E. Allen, was taken ill yesterday with scarlet fever.

The board of county commissioners yesterday appointed Dr. F. N. Straup health officer for Bingham.

Mrs. Shirley T. B. Webster left yesterday for a short visit to Portland, Ore., where she will be the guest of Captain and Mrs. E. W. Palmer.

You're Exclusive.—If wearing our Neckwear, nothing sold by us except we control the line. New patterns and shapes.

BROWN, TERRY & WOODRUFF CO., 166 Main Street.

MEMORIAL SERVICES.

The memorial service in honor of Alvida Johnson, that was to have been held in the First Baptist church today, has been postponed until next Sunday, Nov. 23, at 2 o'clock. Friends of the deceased invited.

10,151 WINS THE PIANO AT THE PARIS MILLINERY CO.

All holders of tickets are requested to keep them until the piano is claimed. If not called for in two weeks the second number drawn will be the winner.

FIRE AT ST. LOUIS.

St. Louis, Nov. 15.—Fire today destroyed the plant of the Michigan Cereal company and damaged the building and stock of the Poyer Printing Machine company adjoining. Loss, \$60,000.

## JAS. H. MONTGOMERY, M.D.

In a Carefully Prepared Article Recommends Dr. D. Kennedy's Favorite Remedy.

In a recent issue of the New York Magazine of Sanitation and Hygiene, the recognized authority on all matters pertaining to health, James H. Montgomery, M. D., says editorially:

"After a careful investigation of Dr. David Kennedy's Favorite Remedy, a specific for kidney, liver and bladder troubles, rheumatism, dyspepsia, and constipation with its attendant ills, we are free to confess that a more meritorious medicine has never come under the examination of the chemical and medical experts of the New York Magazine of Sanitation and Hygiene. In fact, after the most searching tests and rigid inquiry into the record of Dr. David Kennedy's Favorite Remedy, it becomes a duty to recommend its use in unequivocal terms to every reader of this journal whose complaint comes within the list of ailments which this remedy is advertised to cure. We have obtained such overwhelming proof of the efficacy of this specific—have so satisfactorily demonstrated its curative powers in personal experiments—that a care for the interests of our readers leads us to call attention to its great value."

JAMES H. MONTGOMERY, M. D., All druggists sell Dr. David Kennedy's Favorite Remedy in the new 50 cent size and the regular \$1.00 size bottles.

Sample bottle—enough for trial, free by mail.

Dr. David Kennedy's Cherry Balsam for Colds, Coughs, Consumption, etc., 50c, \$1.00.

## ALMOST ELECTROCUTED

Woman and Child Just Missed  
Trolley Wire That Knocked  
Down a Horse.

The breaking of an overhead trolley wire near Eagle gate last evening came near electrocuting a horse which stepped upon one of the fallen ends. A woman and her child, who were occupants of the car which was responsible for the accident, becoming frightened at the sizzling and hissing of the wire as it turned and twisted in the middle of the street, like a fiery mouthed serpent, left the car and started for the sidewalk, when they narrowly escaped contact with the deadly current.

As the car was turning up State street from East Brigham street the trolley slipped and, bounding, broke the overhead wire. The end which fell to the street, twisting and turning, if in agony, and emitting sparks as though relieving itself of the internal trouble, was stepped upon by a horse that was passing, which was hitched to one of Auerbach's delivery wagons. The horse fell to the street with a groan, and those who witnessed the accident thought he had been electrocuted. He soon regained his feet, apparently uninjured.

The sight of the animal falling, coupled with the peculiar hissing of the live wire, accompanied by bright electrical flashes, frightened the occupants of the car, and several of them made their exit as quickly as possible. The woman and child, however, thought they would be more secure. While attempting to cross the street, a mother, accompanied by her little child, narrowly escaped being struck by the wire. For a few minutes, until the employees of the company and people attracted to the scene by the accident, could allay the fears of the passengers by assuring them there was no danger, there was considerable excitement, especially among the women and children who were on the car.

The road does not require the linemen of the company long to repair the damage, and the car proceeded.

## STORIES ARE EXAGGERATED

American Fork Officials Say Smallpox  
Is Not As Bad As Reported.

The semi-sensational stories which have been published lately relative to the existence of smallpox in American Fork are stoutly denied in a communication received by Mayor J. T. Jackson and Dr. J. T. Noyes, the quarantine physician. While they admit the presence of that disease in their city, they contend it is of a very mild type, and that the patients suffer very little. They deny the reports that smallpox was carried from there to other cities through vegetables, and that other cases are attributable to lax quarantine regulations.

In the case of Miss Christopherson of Brigham, who contracted the disease in American Fork and returned home, the mayor and quarantine officer say that she left their city before they knew it. They add that their schools are running, their meetings are held as usual, and that American Fork peddlers are admitted into Mercur and Bingham without danger to anyone.

## THE SAFE WAS EASY.

Portland, Ore., Nov. 15.—At Newberg, twenty miles from this city, the depot was broken into by a burglar last night and the safe robbed of \$1,180. The robber made his entrance through the freight room and was so well acquainted with affairs inside that he was able to open the safe with the combination. An express package which arrived last evening for the Chehalis Valley Milling company, and which contained \$1,180, was taken out. Nothing else except some Western Union receipts is missing. There is no clue to the identity of the burglar, but it is evident that he was well acquainted with the situation.

## STEAMER AGROUND.

New York, Nov. 15.—The Cunard line steamer "Laurier" was aground at Sandy Hook today and the marine observers at Sandy Hook report that she is around.

## BERT DESHAZO IS SUSPECTED

Sheriff Thinks He Was in the  
Saloon Holdup.

## DESPERADO'S HAT AS A CLUE

THROUGH IT OFFICIALS HOPE  
TO CAPTURE THE MAN.

WITH the clue furnished by a hat, the officers expect to trace and capture the desperado who Friday night attempted to hold up the Colorado House saloon and who tried to kill Deputy Sheriff Tom Lewis. The hat worn by the man was dropped during the scramble, and is now in the possession of the sheriff. He has a suspicion as to the identity of the desperado, but is unable to locate him. The suspect is an old offender, who was recently released from the county jail. There is such a marked discrepancy between the description of the hold-up and this man that some of the officers do not believe that the suspect had anything to do with the affair.

The man whom the officers suspect is Bert Deshazo, who just finished a term in the county jail for attempting to hold up two officers who were trying

Deputy Sheriff Tom Lewis (Johnson Photo.)

to arrest him. From his actions in that affair, Sheriff Naylor is said to believe that perhaps he was the highwayman, or was mixed up in the Friday night affair. Deshazo has a bad record and is handy with a gun. Several officers are searching for him. So far as the officers are able to ascertain he is not in the city, and it is their theory that if he committed the deed of which he is suspected, he left during the night for some outside place, where he has relatives, or he would attempt to hide out in the city, and the hat which was found on the floor can be proven to be his, he will be held for the crime.

## Descriptions Do Not Vary.

The description of the hold-up is of a much larger man than Deshazo, and for that reason some of the officers do not believe the ex-prisoner was in the affair. It is asserted by some of the officers that Deshazo is not of the type of criminal who would attempt a thing so bold as the "stick-up" of a saloon. In the other case where he was arrested, he proved that he would use a gun if run to a corner, but it is not believed that he would have nerve enough to deliberately hold up a person. It is through the hat that the officers expect to identify the hold-up if he is caught. The hat bears the mark of an Ogden firm, and was probably bought in that city. The purchase was evidently made recently, for the hat is a comparatively new one, and shows little wear. It is of medium size of the fedora variety.

The hat will probably be taken to the Ogden firm where it was purchased and if possible it will be learned when it was received by the firm. A description of the purchaser, if this evidence can be obtained it is said it will be a comparatively easy matter to locate the man who bought it, provided he has not left the state.

Deputy Lewis, who was struck over the head by the hold-up, is getting along as well as could be expected. It is said his injury will not prove serious.

## Police Have a Clue.

Information received by the police last night leads them to believe that the attempted robbery was the work of an ex-convict from the Iowa state penitentiary, who is known to have arrived in the city about forty-eight hours before the shooting, from Grand Junction. According to the description furnished, the man in question is about five feet ten inches tall, with a dark complexion and hair, is strongly built and practically answers the description which they already had of the man who attempted the robbery.

## EVIDENTLY A BOOM FOR THE EX-SENATOR

Denver, Nov. 15.—The local committee in charge of the proposed jubilee over the Republican victory at the late election is making arrangements to hold the celebration next Tuesday night in this city, in disregard of an announcement by D. B. Fairley, chairman of the Republican state committee, postponing the meeting until the inauguration of Governor Peabody and other state officers, in January next. The conflict over the date results from the contest in the Republican ranks over the choice of a candidate for United States senator to succeed Teller. Arrangements have been made for an illuminated parade, to be followed by an indoors meeting in Coliseum hall, and an outdoor meeting. Ex-Senator E. O. Wolcott will be one of the speakers. He has said in an interview that he has come back to Colorado to stay and will be "proud and happy" to represent the state in the senate, but does not intend to "enter into any scramble for the place."

## HIS SKULL CRUSHED.

Tacoma, Wash., Nov. 15.—Jacob Jacobson was instantly killed this morning by being crushed by a log in the St. Paul & Tacoma Lumber company's mill. He was working on the log deck and was handling a log three feet in diameter. He had put the chain around the log, not thinking that blocks under it would be necessary on the skids to hold it until the saw crew had the carriage clear. To hook the chain beneath it was necessary for him to get on his hands and knees, and while in this position the log commenced to roll, catching his head and crushing his skull.

## CONFERENCE ON CUBA

Secretaries Hay and Root Have  
a Talk on Reciprocity Matters  
and the Platt Amendment.

Washington, Nov. 15.—Before Secretary Root left here for New York today he had a conference on the subject of Cuba with Secretary Hay. Beyond the statement that the conference related to Cuban reciprocity and the other matters included in the Platt amendment, it was impossible to extract any information as to what took place. It is known that no step has been taken within the last few days.

Reports from Cuba are to the effect that the Cubans are divided upon the question of reciprocity, especially as regards the concessions demanded and the lowest possible rates of concessions which this country will demand of Cuba. It is expected that General Bliss will endeavor to close up the negotiations speedily and that after his return the Cuban government will be allowed the Cubans to reply before the negotiations will terminate.

General Bliss will present definite propositions from this government. He will state the concessions which the United States will grant, which is 20 per cent on Cuban products, and also will give the Cubans the lowest possible rates of concessions which this country will demand of Cuba. It is expected that General Bliss will endeavor to close up the negotiations speedily and that after his return the Cuban government will be allowed the Cubans to reply before the negotiations will terminate.

## WERE LUNATICS.

London, Nov. 15.—Sensational stories were current at Sandringham today regarding the arrest of suspicious individuals in the neighborhood of the royal residence. Late last night it was asserted two men disguised as women were intercepted by the police while on their way to the house. The facts are that two women, believed to be lunatics, who wanted to present a petition to Queen Alexandra, were detained by the police.

## BELIEVE IN TINGLEY.

San Diego, Cal., Nov. 15.—The chamber of commerce of this city has appointed a committee to draft a letter addressed to the secretary of the treasury at Washington and the president of the New York Society for the Prevention of Cruelty to Children that in the opinion of the San Diego chamber of commerce the school at Point Loma is properly conducted and the children there are well cared for. The letters will be forwarded at once.

## THE VALUE OF CHARCOAL.

Few People Know How Useful It Is  
In Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value, when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking, or after eating onions and other odorous vegetables. Charcoal effectively cleanses and improves the complexion, whitens the teeth and further acts as a natural and eminently safe cathartic.

Charcoal sweetens the breath after smoking, drinking, or after eating onions and other odorous vegetables. Charcoal effectively cleanses and improves the complexion, whitens the teeth and further acts as a natural and eminently safe cathartic.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath, and purer blood and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit. A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Absorbent Lozenges to all patients suffering from indigestion, flatulency, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the use of them; they cost but 25 cents a box at drug stores, and although in some sense a patent preparation, yet I believe it is a more and better charcoal in Stuart's Absorbent Lozenges than in any of the ordinary charcoal tablets."

## A COMMON SENSE TALK TO WOMEN ABOUT THEIR "CROWNING GLORY," TOGETHER WITH A FEW REMARKS UPON THE NEW ANTISEPTIC HAIR DRESSING, Newbro's Herpicide.

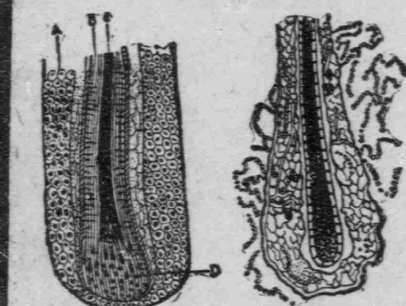

**Her Chief Attraction.** Woman's chief attraction is her hair, yet how often does she fail to appreciate nature's charming ornament, or to realize its aid to personal beauty until it is too late. Day after day her comb makes its mute appeal by exposing the hairs that are sacrificed to thoughtlessness and neglect, and later, when the switch or "false front" becomes necessary, she is sure to be filled with envy and disappointment. All this is unnecessary; the foundation for a good head of hair should be laid in infancy, and by continuing the proper care and attention, an abundance of luxuriant hair will always be assured.

**The Shampoo.** The scalp should be thoroughly washed at least once a month, and oftener if necessary, but excessive or too frequent washing is harmful. The soap should be as free from alkali as possible, and a strictly pure tar soap is perhaps preferable, as the tar is wonderfully healing and leaves no suggestion of odor. Do not rub the soap on the hair, as in this way many hairs may be broken. Put the soap into a suitable vessel and pour over it about a pint of boiling water; stir until a creamy lather is produced, then remove the soap. When it has cooled sufficiently, apply this soapy liquid plentifully to the hair and scalp. Rub the hair—always at right angles between the hands, and manipulate the scalp thoroughly. The rinsing is most important, as the last trace of alkalinity must be removed. Just after shampooing, the scalp is in prime condition for the application of Newbro's Herpicide. It enters the follicles, and if the sebaceous glands are clogged with stale parasites they are promptly destroyed. It makes the hair quickly manageable, and its alcoholic nature prevents one taking cold after the shampoo. After a shampoo the hair should be thoroughly dried, and sun drying should be practiced whenever possible.

**Oil and Grease Stop the Hair Growth.** With proper care, nature supplies a sufficient amount of oil to the hair; therefore, never apply oils or grease, for they become rancid, clog up the pores of the scalp, catch the dust and prevent an invigorating field for microbial activity. A thorough application of Newbro's Herpicide will cleanse the hair and scalp of grease or oil.

**Worry and Overwork.** Worry and overwork seldom fail to make serious inroads upon the hair, and the general health should be carefully looked after by those who would retain their beautiful tresses. A never failing method of causing hair loss is to crimp it closely to the head, or bind it tightly in solid coils. This causes a constant tension on the hair root, severing, wholly or in part, the bulb from its living papilla, in which event death of the hair is sure to follow.

## See the Dandruff Germ.

A Healthy Hair. An Unhealthy Hair.

## WARNING!

Don't expect satisfactory results from something that the druggist told you was "just as good" as Newbro's Herpicide. Remember, too, that the success of Herpicide has caused the market to be flooded with so-called dandruff germ destroyers. There is but one genuine scalp germicide, and that is Newbro's Herpicide. Applications at barbers. Sold by druggists, \$1.00 per bottle.

## Gardner Daily Store News

Fitting Men and Boys out for winter keeps us pretty busy these days.

Especially since the weather has got a little more wintry.

Overcoats seem to have had the run for several days and many a man has been overcoated.

And overcoated to his entire satisfaction, too.

There's such a satisfaction in selling the Gardner overcoats, 'cause we know the value of them, know they're not equalled anywhere outside of the high price tailor shops and then only at nearly double the price. Notice the style to the one shown here. It's an exact reproduction of one of the garments. Isn't it swell? Then the insides of the Gardner clothes are just as good as the outsides; every little point must be up to standard, and after all, it's the little points that have to stand the brunt of the wear and tear of the garment; overcoats are \$8.00, \$10.00, \$12.00, \$13.50, \$15.00 and away up to \$50.00. You'll have to see the latter to appreciate it; couldn't begin to paint its beauty on paper. Then there are the suits; nobby patterns made up in the newest styles, with such a price range that everyone ought to get suited; and then so many little things—Shirts, Hats, Underwear, Hosiery, Neckwear, Gloves, all given as much care in their selection as the bigger things; so you're sure to find whatever is new here, and one thing we know: No such values elsewhere for the same money—know it enough to say, "Money back if we're not right." Don't you think this would be a good place to buy your winter clothes?

ONE PRICE. J. P. GARDNER, 136-138 MAIN ST.
